Awesome!!	
Johannes Treutler	2020-08-12 06:31:46.010 PM
How many CEL do we have on Liquid after you send away these 1,216,037 CEL?	
Johannes Treutler	2020-08-12 06:33:32.013 PM
I just learned from Harumi that we're buying extra 1,195,829 CEL tokens on markets as soon as Albert is running out of CEL to sell - these CEL tokens are the missed interest of the 3 founders during the time they locked their Tokens start of the year ..	
Connor Nolan	2020-08-12 06:56:16.013 PM
564,805.7678	
Johannes Treutler	2020-08-12 07:12:22.013 PM

Connor Nolan	2020-08-12 07:30:22.013 PM

Connor Nolan	2020-08-12 08:02:06.017 PM
Im gonna show Dean the Reg S process tomorrow and we will get out the one you just forwarded him	
Connor Nolan	2020-08-12 08:06:01.017 PM
getting a little expensive now for this	
Connor Nolan	2020-08-12 08:06:21.017 PM
i guess we need to buy all those so might as well get back to 40c ... is that the thought?	
Johannes Treutler	2020-08-12 08:28:28.017 PM
The proceeds from the OTCs we are doing right now are going to Alex or Daniel or our OTC pool .. we will look at the prices when done	
Johannes Treutler	2020-08-12 08:29:14.017 PM
We bought a lot at 36-37ct so its fine that we sold nearly the same day at 37 no matter if we will cover this with OTC pool or maybe with Alex	
Johannes Treutler	2020-08-12 08:29:27.017 PM
We won't have a loss there	
Johannes Treutler	2020-08-12 08:30:07.020 PM
The 2x 20x 5k today are just the normal CEL purchase and trying to bring the market up to get people excited again and have them buy back in again	
Connor Nolan	2020-08-12 08:30:09.020 PM
my 40c question was about the buys we are doing 5kx20 not otc	
Connor Nolan	2020-08-12 08:30:18.020 PM

ok got it

2020-08-12 08:31:14.020 PM

Connor Nolan

2020-08-12 09:52:02.023 PM

Connor Nolan

8 now

2020-08-12 10:12:56.027 PM

Johannes Treutler

What if we would do instead of 8x5k now something like 16x 2.5k? This would be less slippage.. I think if we can motivate markets to stay higher the next days we have a win win as for example also the interest in distributed based on the screenshot price on Friday .. and if this price is higher than our average buying price this would be awesome..

2020-08-12 10:13:03.027 PM

Johannes Treutler

What's your honest opinion?

2020-08-12 10:13:20.027 PM

Johannes Treutler

Do you think we already pushed markets enough?

2020-08-12 10:14:10.030 PM

Connor Nolan

have 7 left we can finish it out at 5k blocks

2020-08-12 10:14:13.030 PM

Connor Nolan

lets do it

2020-08-12 10:14:23.030 PM

Johannes Treutler

Ok

2020-08-12 10:14:58.030 PM

Johannes Treutler

Can you slow it down for the next 2-3 hours? (Don't want to ask you for too much of your valuable time .. just in case you're online ..)

2020-08-12 10:15:11.030 PM

Connor Nolan

yes I can

2020-08-12 10:15:18.030 PM

Connor Nolan

so you think we pushed too far?

2020-08-12 10:15:23.030 PM

Connor Nolan

I can do smaller blocks

2020-08-12 10:15:42.030 PM

Connor Nolan

I can do 10 of 2.5k

thoughts?	
Johannes Treutler	2020-08-12 10:19:54.033 PM
<hr/>	
I don't think we pushed too far. Honestly there is no too far. The higher we push CEL for an acceptable cost the more people notice it and add their own buy orders below current price .. it's a healthy process ..	
Johannes Treutler	2020-08-12 10:20:13.033 PM
<hr/>	
But I think 10x2.5k could be the best solution for the final phase =)

Thank you !!
